

Community Partner:

AWOFINC is designed to meet the needs of families who do not have the resources to attain the supplemental services that are needed to enhance the possibility of success for their family. *The mission and ministry of AWOFINC is to significantly reduce illiteracy, unemployment, youth gang activity, drug and alcohol abuse, violence and homelessness by developing happy purposeful people committed to giving something back to community.* The management, staff and volunteers of AWOFINC respect the rights of individuals and are sensitive to the challenges that families face daily. We are aware of the rapid strides your organization has made in serving the needs of the community. We know we can find ways to match your organization's goals with our community resource department's goals.

Our community-based participatory partnership (CBPP) is a collaborative body of individuals and organizations working together for a common goal or issue of importance to the community. It consists of mutually beneficial relationships where all parties have shared responsibilities, privileges and power. Our CBPPs are formed to strengthen the impact of the community education, outreach or advocacy programs.

We are partnered with multiple organizations in the community, and our organization understands how valuable your involvement is for our overall success. We are asking you to join us in partnership to achieve these goals. There are many ways you and your organization can provide the resources that will most effectively provide support, information and resources to the families we all serve. We would like the opportunity to explore with you, or with a member of your staff, the avenues by which you could assist us. Also, we look forward to providing you with information about community resources that would be available to your organization as part of our partnership.

Might you set aside 20 minutes to discuss your organization's goals for the program with us? We know we can figure out some great ways we can work together. Please [schedule a meeting](#) or you can contact us when it's convenient to do so. We look forward to hearing back.

More detail about AWOFINC and their affiliates are available on our [website](#).

Respectfully,

**Kabir Premhani**

Associate Director
